SUMMARY

Computer Engineering student with hands-on experience in software development, backend engineering, and machine learning. Skilled in Java, Python, Spring Framework, FastAPI, Docker, and Git. Experienced in building scalable applications, developing REST APIs, and deploying machine learning solutions. Passionate about solving real-world problems through efficient and reliable software systems.

PROJECTS

End-to-End Machine Learning Deployment & Monitoring System (Ongoing)

- Built an end-to-end platform to deploy and monitor ML models using FastAPI and Docker.
- Implemented model inference APIs supporting multiple scikit-learn models (Random Forest, SVM, Gradient Boosting).
- Integrated MLflow, Prometheus, and Grafana for model tracking and monitoring.
- Added data drift detection using Evidently AI.

Real Time Sign Language Detection Using MediaPipe and LSTM

- Developed a computer vision application for real-time hand gesture recognition using MediaPipe and OpenCV.
 - Trained LSTM-based deep learning models for sequence classification of sign language gestures.
 - Created and processed gesture datasets for model training and evaluation.
 - Implemented gesture-to-text translation to improve accessibility for hearing-impaired users.
-

INTERNSHIPS

CodSoft - UI/UX Design Intern

Dec 24 - Jan 25

- Designed user-friendly mobile app signup flow focusing on usability and accessibility.
- Created responsive email templates for marketing campaigns.
- Designed restaurant menu UI and e-commerce interface emphasizing readability and clean layout.

The Delacy - Software Development Intern

June 24 - July 24

- Developed a Railway Reservation System using Java, JavaFX, and Swing.
 - Implemented modules for ticket booking, cancellation, seat availability, and authentication.
 - Integrated backend logic using Spring Framework and database connectivity with JDBC.
-

EDUCATION

Bachelor of Technology in Computer Engineering

(Pursuing) 2022 - 2026

Silver Oak College of Engineering and Technology

CGPA - 9.30

Higher Secondary Certification (GHSEB)

2021 - 2022

Atharv Public School

Senior Secondary Certification (CBSE)

2017 - 2018

Shri L. G. Haria Multipurpose School

CORE COMPETENCIES

- **Programming Languages:** Java, Python
 - **Backend Development:** Spring Framework, FastAPI, JDBC
 - **Web Development:** HTML5, CSS3, ReactJS (Basics), NodeJS (Basics)
 - **Machine Learning:** Scikit-learn, MediaPipe, LSTM, MLflow
 - **Tools & Platforms:** Git, GitHub, Docker, Prometheus, Grafana, Figma
 - **Computer Science Fundamentals:** DSA, OOP, DBMS, OS, Computer Networks
 - **Soft Skills:** Problem Solving, Team Collaboration, Logical Thinking, Quick Learning
-

CERTIFICATIONS & COURSES

- Kalpvruksh, Coursera Figma, DO101, Flutter 101, Spoken Tutorial (Python)
- 1st Prize - AAVISHKAR Project Fair 2025 (College-Level Competition)
